WORKERS' COMP RATES DOWN

Workers Compensation costs are still too high and the San Diego Employers Association along with Marris Maddocks, has put together a dynamic Workers Compensation insurance program which can help you reduce your costs.

We offer very competitive rates to companies who have a good history of managing their losses.

We make it simple! All you need is:

- 50 employees or less
- An acceptable loss history

We can switch mid-term if you are insured with State Fund at no penalty.

The rates on this program can be up to **30 to 40% lower** than State Fund for targeted business classes.

Just fax the completed information below and we'll start you on the road to savings!
